

Do you remember the Fuorisalone SARPI BRIDGE_ORIENTAL DESIGN WEEK?

Well, the curators and organizers are returning to Sarpi with ASIA DESIGN MILANO, to offer a unique event never before experienced at Milan Design Week!

THE NIGHT

“Being a project,” the theme of Milan Design Week 2026, becomes for ASIA DESIGN MILANO an invitation addressed to everyone, because only together can we *be* a project and emerge from the dark period we are experiencing.

Night becomes the protagonist through the states of mind of designers and artists—both Eastern and Western—who are invited to explore it.

To see the light, one must pass through the Night.

To face the darkness in order to go beyond appearances, grasp the essence of things, endure, and shape the future.

An exhibition where, between design and art, between innovation and creativity, emotions emerge more powerfully than ever, revealing visions that would be invisible during the day.

A bold exhibition, held at night and entirely in darkness, to be experienced only with the light of your smartphone.

An innovative journey—cultural, aesthetic, and emotional.

We look forward to welcoming you from April 21 to 25,
from sunset to sunrise (10:00 PM to 5:00 AM),
at LE CISTERNE – LA FABBRICA DEL VAPORE, Via Procaccini 4.

And if you come in your pajamas, you'll be our ambassadors!

...because the aim is to bring the exhibition to other cities across Italy—one NIGHT for each city—and to do so, we need your support.
